Time and Materials Engineering for Scalable Deployment

Scale Your Team. Control Your Budget. Deploy Faster.

Essentia helps broadband providers, electric cooperatives, municipalities, and wireless carriers scale telecom expertise as project demands change, without adding permanent headcount.

The Challenge You Face

- Project scope can change quickly
- Permanent hires add long-term overhead
- Permitting, pole conditions, and timeline shifts create budget risk
- Every stakeholder — board, council, or executive team — needs a spend model they can defend

The Essentia Solution

- Flexible telecom engineering expertise when you need it
- Verified work and approved expenses
- Project control without long-term hires
- NTE caps available for budget protection
- eSpeed's PMO platform gives real-time visibility into spend, progress, and reporting.

Full Project Lifecycle Support

Design Engineering

- Route Analysis & Cost Evaluation
- Technology & Architecture Consulting
- Delivery & Pre-Con Planning

Construction Engineering

- Construction Sets & Staking
- Network & Labor Planning
- Splicing Matrix & BOM Costing

Project Management

- Powered by eSpeed's PMO platform
- Scope, Schedule & Budget Control
- Burn Rate Forecasting & Cost Oversight
- Construction QC & Reporting

Compliance & Closeout

- Permitting & ROW Support
- Pole Loading Analysis
- Grant Compliance & As-Built

Full Project Lifecycle Support

Program Management Platform
Essentia's PMO platform unifies scope, schedule, and delivery.

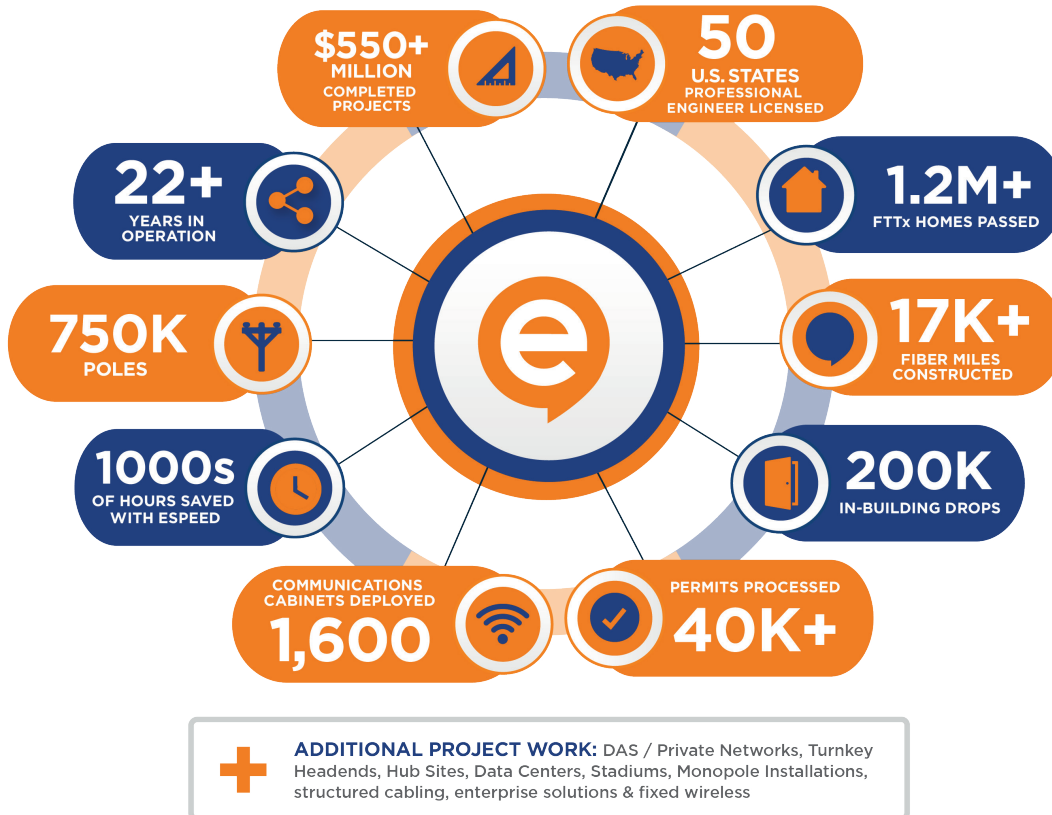

Actual Expenses
Approved materials, tools, and travel billed with clear documentation

Monthly Billing
Based on verified work logs — pay only for what you use
